

Connect to the Network on macOS 15.1../26

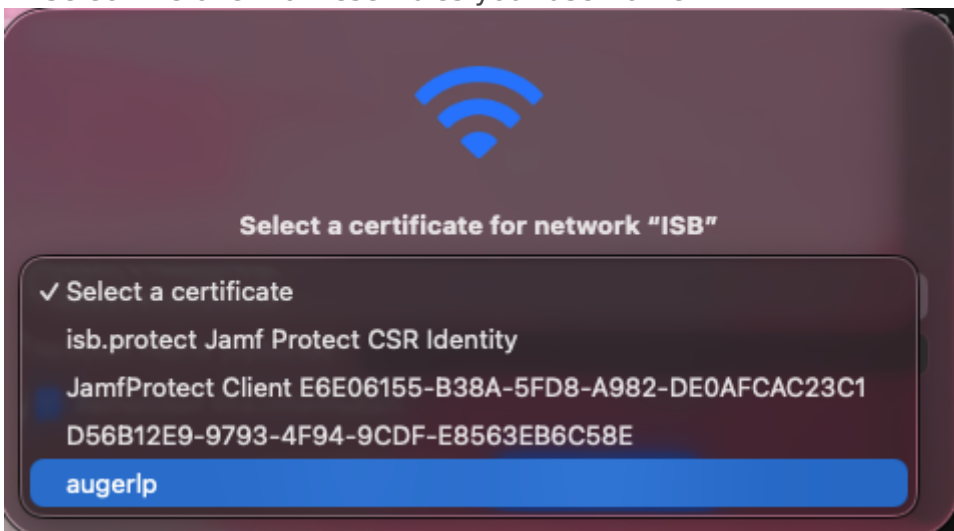

1. Click the **Wi-Fi icon** in the **top-right corner** of the screen.

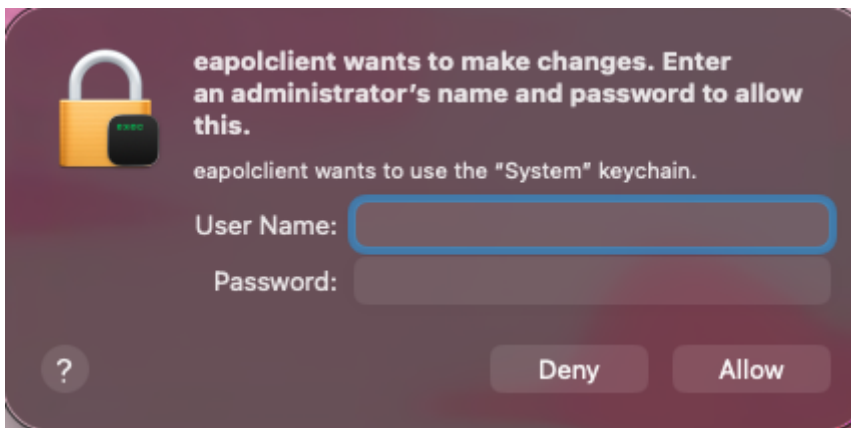

2. Click the network named "ISB"

3. When the connection window appears:
 - Click on "Select a Certificate"
 - Select the one that resembles your username

4. Click **Deny**

Wait a few seconds until Wi-Fi shows **Connected**.
