

Turn the screen on

1. Press the screen's power button.
2. Wait for the display to start.
3. Select the required input or home screen.

Turn the screen off

1. Save your work in the whiteboard or any open application.
2. Disconnect your laptop if you no longer need it connected.
3. Long-press the power button.
4. Confirm the shutdown prompt.

Do not unplug the screen while it is running unless IT has instructed you to do so.

If the screen does not respond

- Press the power button once and wait.
- Check whether the power indicator is lit.
- Contact IT if the screen still does not start.
- If the screen is on, but unresponsive:
 - Long-press the power button. Confirm the shutdown prompt.
 - Contact IT if the screen still does not respond.

Revision #5
