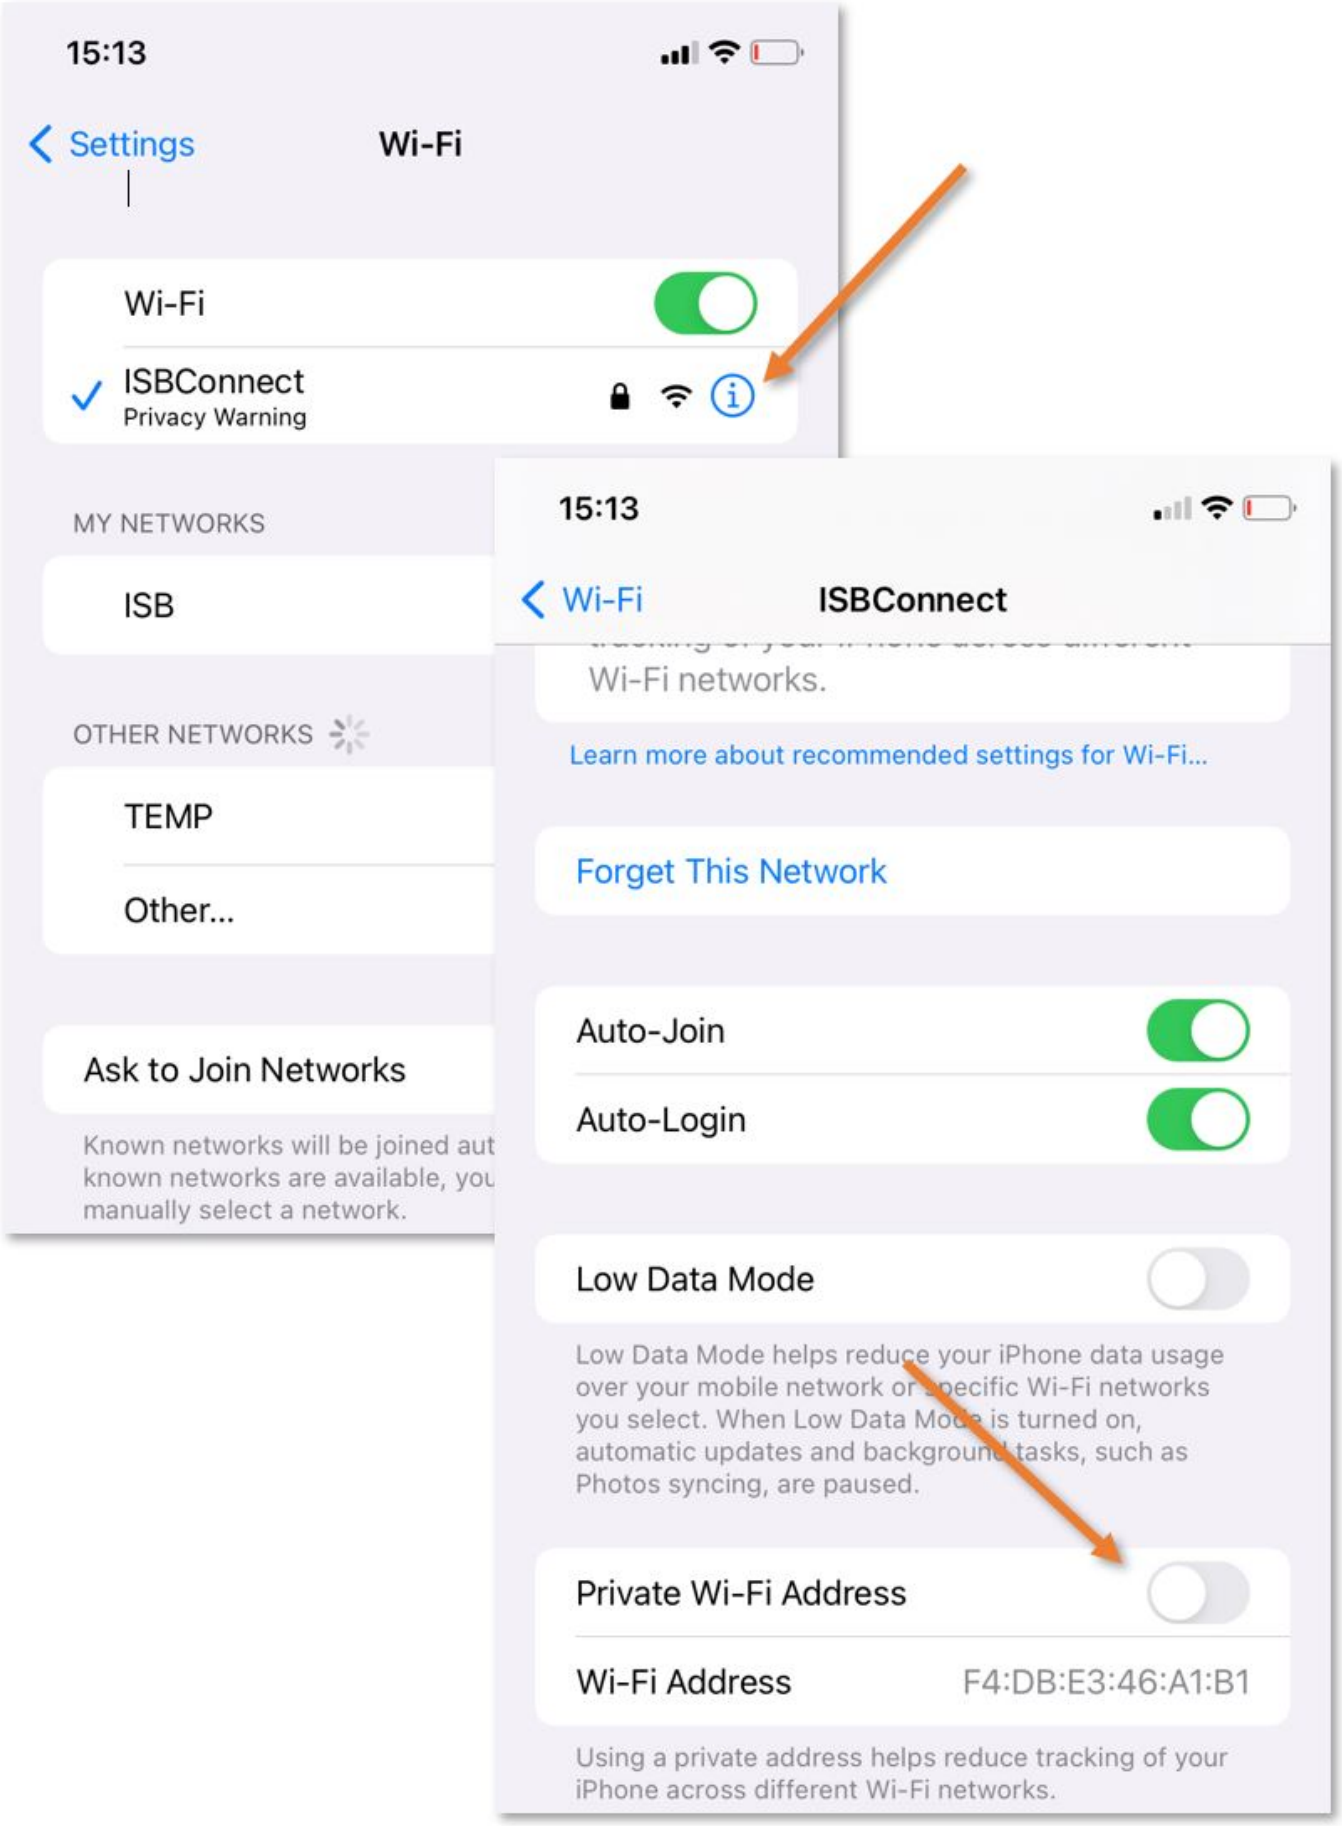
Connect to ISBConnect

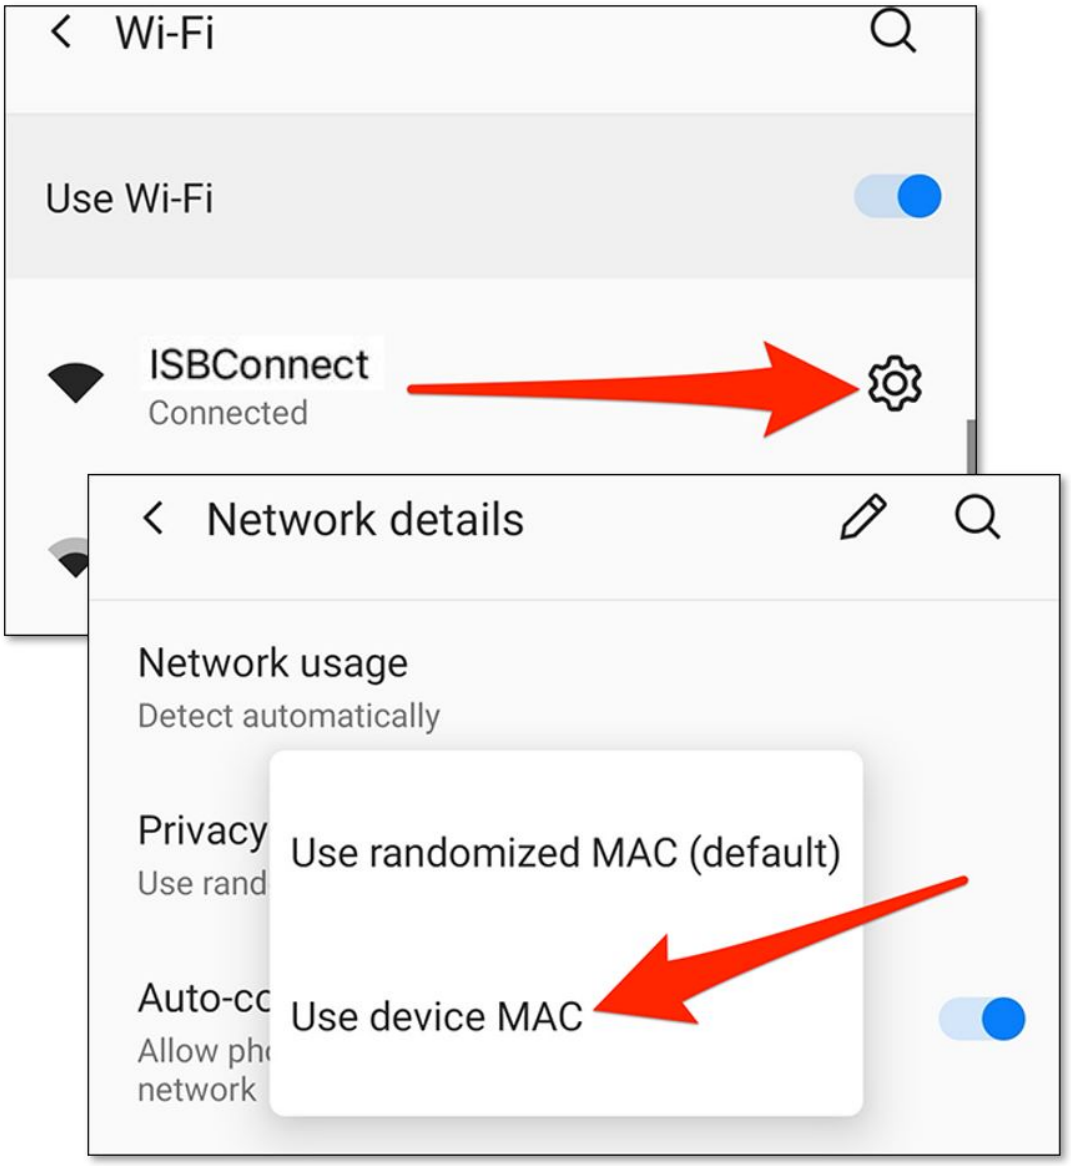
ISBConnect is our guest WiFi network and can be accessed by anybody.

Before connecting, please ensure that the MAC randomizer of your device is off for ISBConnect.

For iPhones and iPads, click the info bubble next to ISBConnect, scroll down, and make sure that "Private Wi-Fi Address" is turned off.

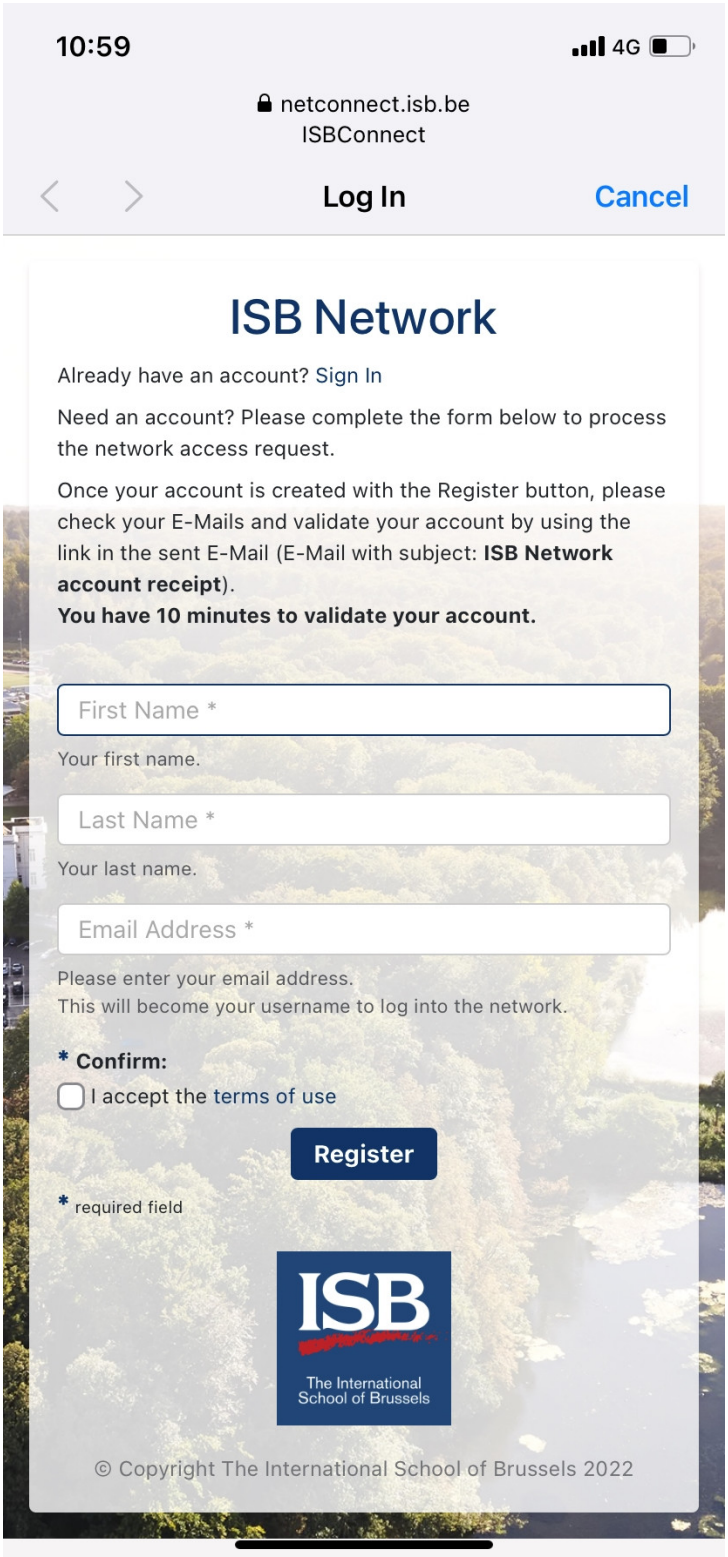


For modern Android phones, click on the cogwheel next to ISBConnect and change "Use randomized MAC" to "Use device MAC." (If the option is missing, you can continue connecting.)



The password for ISBConnect is:
19kattenberg1170bxl

After inserting the above password, the underneath window will pop up. Please fill in your First, Last Name and your Email (preferably one that you can access fast). Accept the terms of use and press Register. (more underneath)



Once you press Register, you will have internet for 10 minutes. Please check your email for a message similar to the one underneath. Click Confirm to extend the duration to 90 days.

If it doesn't work, connect to ISBConnect again and click on Sign In instead of filling in your First and Last Name. Use the username and password that you received in your email to finish connecting. You should be ready to go now.

Welcome Nicolae Marin,
your account is ready to be used but requires a validation.

Account validation:

To activate your account for 90 days, please click on the button ✓ Confirm or click here to confirm its creation. *This operation must be done while connected to the ISB Network. If the welcome page of the ISB Network display again, please connect using the below information.*

Connection information for a second device:

1. Connect to the wireless network : ***ISBConnect*** with the key ***19kattenberg1170bxl***
2. Your device should automatically open the captive portal page or inform you to sign-in. If this is not the case, open manually the webpage www.isb.be
3. Click on the link ***Sign-in***.
4. Fill-in your credentials:
   – *Username:* ***n1colae_ @yahoo.com***
   – *Password:* ***583509***
5. Tick the checkbox to accept the Terms of Use after having read it

Remember:

This account allows you to gain access to Internet as a guest. It is only created for this purpose and cannot be transfered or sold.

The credentials provided to the user are private and cannot be published.

The credentials are valid for the speficied time.

In case of loss, the user must inform an internal responsible immediataly.

Please refer to the Terms of Use of the network for the complete usage policy.
