# Transfer Your Browser Bookmarks

Chrome

The easiest option for Chrome is to sign in and sync. This will sync your bookmarks as well as your history. If you've already signed in, please make sure you are syncing your bookmarks:

If you have not yet signed into Chrome:

1. Open Chrome.
2. In the top right, click the button with your name or People People icon image not found or type unknown
3. Click **Sign in to Chrome**.
4. Sign in with your ISB Credential I
5. f you want to sync your info across all your devices, click **Turn on sync** and then image not found or type unkn **Turn on**.
6. To customize your sync settings, click More More icon image not found or type bot known and then **Settings** and then image not found **Advanced sync settings**. You can choose what information to share across other devices where you're signed in to Chrome.

Firefox

To export bookmarks from Firefox, follow the instructions linked here.
